

2014 WORLD ENGINEERING EDUCATION FORUM

Engineering Education for a Global Community

Program Highlights

Expect over 70 multidisciplinary sessions during WEEF 2014, bringing together the world's most renowned experts to address the latest innovation, advances, technology, issues and challenges in engineering education. The program will include:

- Plenary sessions from keynote speakers and expert panelists
- Peer reviewed published and archived conference proceedings
- Full paper presentations and sessions
- GEDC sessions for engineering deans on diversity, employability
- IFEES sessions on MOOCs, flipped classrooms, PBL, and technical-based learning
- ABET workshop on outcomes assessment and accreditation
- IEEE workshop on gender equity in engineering education and practice
- Regional workgroup meetings
- Plenary intergenerational panel
